*Master – GLU:
Connecting the study-, research-
and supervision-process into
collective structures.*

Knut Steinar Engelsen

The HVL-strategy

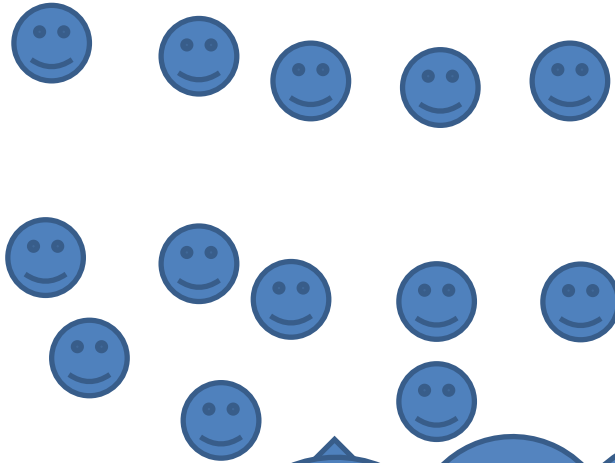

The arenas:

5 strategic research programmes

53 research groups

One main challenge:

The need for supervision
and supervisors

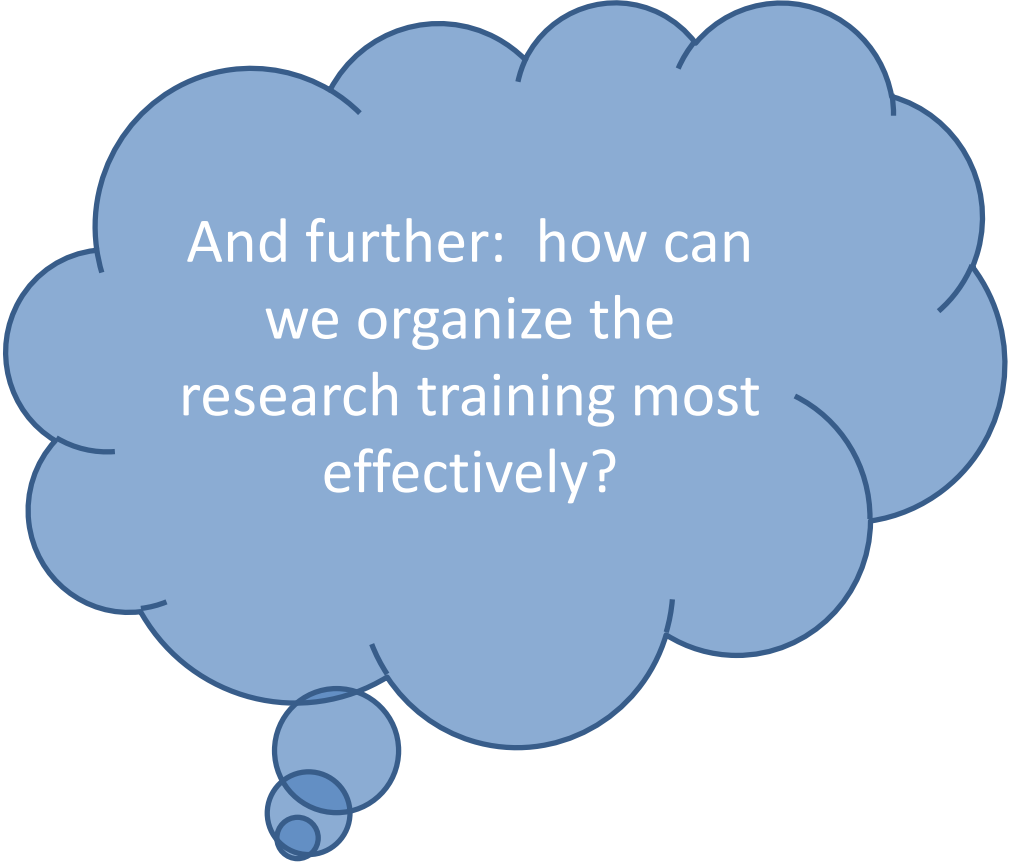

Can this be realized
through collectivizing
the masterpart and the
way we organize
supervision?

How to utilize the
potential power of
peer-tutoring

- among students?
- among educators?

330 man-years that can
strengthen the research
activity ?

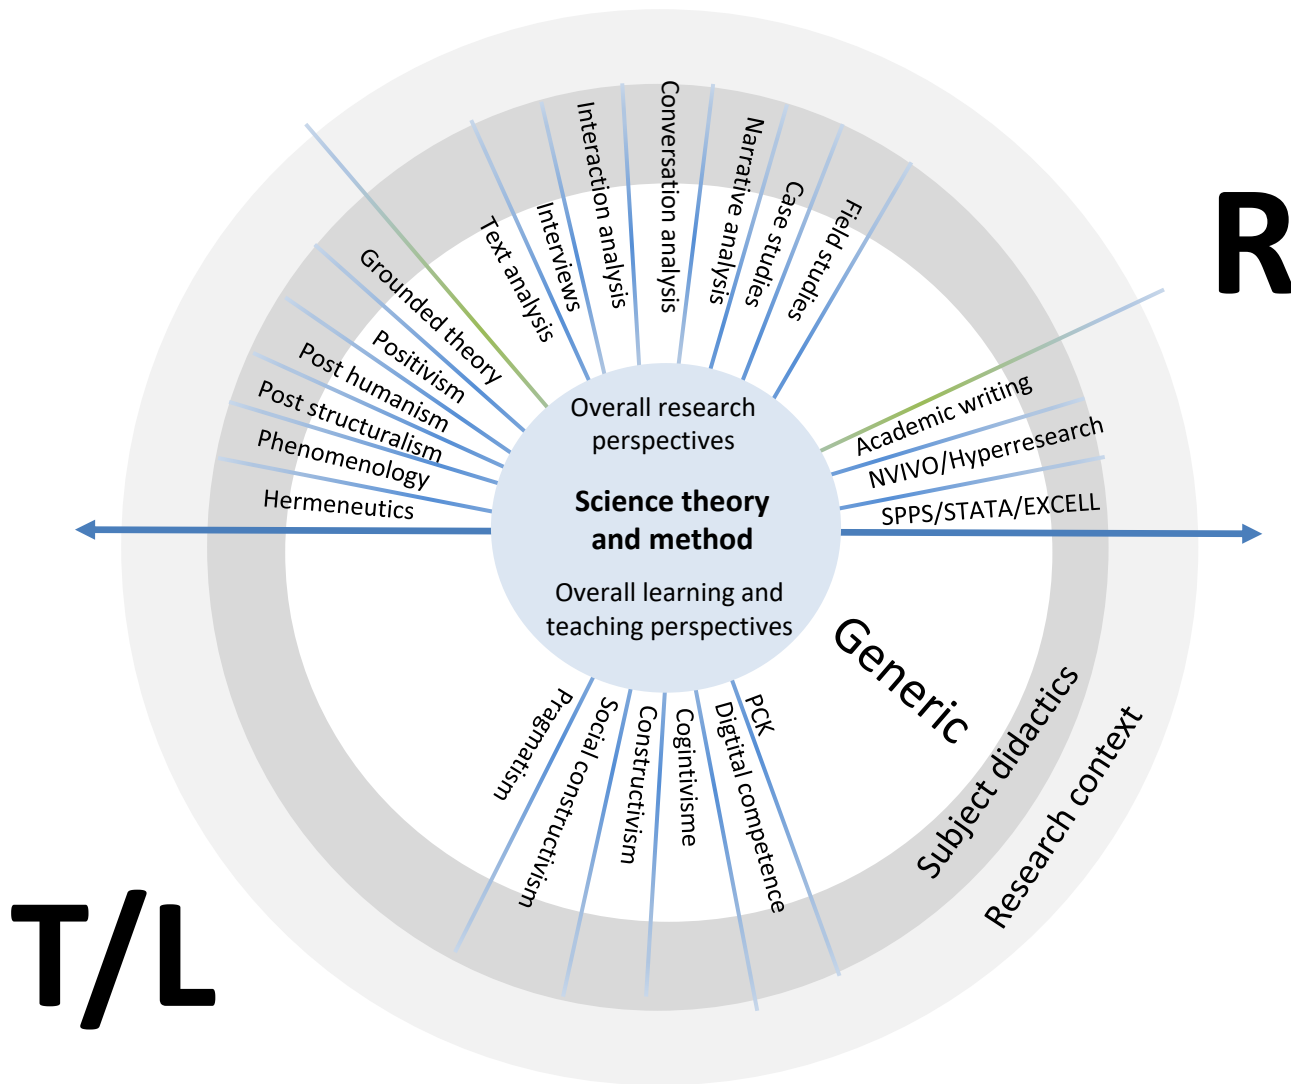

And contribute to the development of
the practice field?

A large, irregular blue thought bubble with a dark blue outline, containing white text. Three smaller blue circles of decreasing size are connected to the bottom of the main bubble by thin lines, suggesting a trail of thought.

And further: how can
we organize the
research training most
effectively?

A tentative model for organizing the research training
