On the research track:
Indigenous Research Methodology in Sámi Teacher Education

Session 2: “Good ideas, Initiatives and Innovations”

Ylva Jannok Nutti
Associate Professor, Sámi Teacher Education, Sámi allaskuvla
The on-going development of Sámi Teacher Education

The development of Sámi teacher education

From the classroom to the top of the mountain

Indigenous research field and Sámi master teacher education

the use and development of Sámi language and knowledge
• Sámi traditional (ecological) knowledge and sustainable development
• Sámi values and cultural based teaching perspectives

HOW DO WE MAKE SURE THAT THESE POLES ARE VISIBLE in the master education and in students master thesis? What kind of master thesis subjects and presentations forms do we allow them to do?

Scientific theory and research method in Sámi teacher education

• Workshops
  – Indigenous Research Methodology
  – Research Ethics
  – Scientific writing

• Lectures
  – Earlier Sámi and school research
  – Master student teachers´ presentations

• Current Sámi and research activities
• Reading groups meetings
• Seminars and supervisions
Foundation for the research

• To navigate in the landscape of research
  – Respect, Reciprocity, Reliability, Relevance
  – Language, Place-based, and Contextual aspects

• Indigenous Research Methodology
  – Porsanger research lávvvu
  – Student teachers master research lávvvus

• What, why, to whom and what do we do with research projects?
